

Coming! Coming! Coming!

WHAT?

Why, Spring and Summer.

In fact, it is right here now. The season for lounging in hammocks, playing base ball and lawn tennis, drinking good cold soda, taking cool and refreshing ices, lemonades, &c., to make life worth living. Renovating your system with various spring tonics to relieve that tired feeling.

And why not paint your house this spring? Don't you know I keep the best Paint on earth, and can save you money? Just write to me or call on me and let me show you what I have and what I can do for you in anything belonging to my line.

Yours truly,

J. W. KELLY.

ROAD BUILDING.
Many Short Lines and Some Longer Ones.
There is much activity in industrial lines in the extreme western part of Virginia and in East Tennessee, mainly traceable to the influence of the Virginia Iron, Coal and Coke Co. The activity is particularly noticeable in railroad construction.
The two Bristol railroads, which have been bought by the Virginia syndicate, have, as is well known, been consolidated under one management, under the name of the Virginia and Southwestern.
The present southern or south-

W. J. Horsley, the mayor of Big Stone Gap, went to Abingdon Tuesday and returned Wednesday. He is a candidate for re-election for mayor. Mr. Horsley has made a good mayor and expects the people of the Gap to return him to the position he has so ably filled.—Bristol Tribune.

Killed by Lightning.
On last Thursday, the 4th inst., during a severe rain and electric storm Mrs. Jno. W. Blair was killed by lightning at her home on Big Loney Creek in Harlan county, Ky., about ten miles from this place. Mrs. Blair was standing in the door and her husband was sitting near with two of their children on his lap, when the fatal bolt came crashing down, severing Mrs. Blair's head, killing her instantly. Mr. Blair and the children were so severely shocked that they did not regain consciousness for two hours, when Mr. Blair found that he was totally blind, but soon recovered his sight, however, and his eyes beheld the lifeless form of his wife lying near him, badly burned, her clothing having taken fire, which would have burned the house had the husband remained unconscious much longer.

Mrs. Blair was a grand-daughter of Ira Stidham of this county.
Taken to the Asylum.
R. H. Cowden, of Scott county, was brought in over the Virginia and Southwestern yesterday morning and taken to Marion asylum on the afternoon train. Mr. Cowden, who is very insane, is one of Scott county's best citizens, having held office in that county for years. His insanity was brought on by the sudden death of two grandchildren he had raised and educated. Both young ladies died in the same week, which loss drove him to his present condition. He was at one time deputy sheriff of Scott county, and was twice elected sheriff of same county. It is hoped his insanity is only temporary.—Bristol Tribune, 2nd.

Special Meeting.
Town council met May 8th, pursuant to adjournment.
Present: W. J. Horsley, mayor, J. B. Adams, J. W. Kennedy, I. N. Kelly, W. S. Mathews, W. C. Robinson, H. I. Sullivan.
The object of this special meeting was to take action in regard to the water works. It will be remembered that certain citizens of the town re-

western terminus of this road is Elizabethton, Tenn. A force of engineers are busy surveying new routes from that point through Carter county and into Johnson county, extending the line in all probability thirty miles into rich ore fields, which are owned by the Virginia Iron, Coal and Coke Co.

Elizabethton people are very hopeful of a lively pick-up in business there on account of the proposed extension of the road, and doubtless their hopes will be realized.

Another corps of engineers is surveying a route from Clinchport, on the Virginia and Southwest railroad up the Clinch river to a point where it will leave the river and cross the country to Coeburn, Va., on the Norfolk and Western railroad.

The object of this connection is to reach the Toms Creek Coal and Coke plant at Toms Creek, three miles from Coeburn and thus secure for the Virginia and Southwestern the enormous freights which this big colliery is now throwing into the hands of the Norfolk and Western.

Besides these extensions the Interstate Railway Company, which is owned by the Virginia Coal and Iron Co., of Stonegap, is now surveying a route from Appalachia Junction, on the Louisville and Nashville railroad, to Norton—a distance of about fourteen miles. The company has already bought most of the property through which the road will be run.

Among the properties so purchased is what is known as the Kellyville tract of land, for which \$76,000 was paid.

Large numbers of shanties are being erected at Kellyville on the Louisville and Nashville, and coal properties will be developed as the road is being built.

The object of the Stonegap people in extending the Interstate road to Norton is to save the price which the Stonegap company has been paying the Louisville and Nashville for taking their coke and coal down to Norton to the Norfolk and Western.

There is still another short road under construction. This one runs from Ramsey, on the Clinch Valley division of the Norfolk and Western, to Wise courthouse—a distance of three miles—and will from there be extended into the timber properties north of the courthouse. This road is being constructed by a lumber company. It will be a standard-gauge road.—Pulaski News-Review.

Special Meeting.
Town council met May 8th, pursuant to adjournment.
Present: W. J. Horsley, mayor, J. B. Adams, J. W. Kennedy, I. N. Kelly, W. S. Mathews, W. C. Robinson, H. I. Sullivan.
The object of this special meeting was to take action in regard to the water works. It will be remembered that certain citizens of the town re-

cently entered an injunction suit against the Glamorgan Pipe and Foundry Company to prevent them from taking up the water pipes. The council ratified the action thus taken and appointed a committee to negotiate with the water company looking to the purchasing of the said water works by the town. The water company has agreed to take \$25,000 for the system and just as soon as bonds can be sold the people will be asked to vote upon the question of issuing them to purchase the water system.

The ordinance committee reported against the proposition to allow the new telephone company an exclusive franchise.

The council adjourned to meet again in extra session at 2 o'clock p. m. Monday 15th inst.

The ancients believed that rheumatism was the work of a demon within a man. Any one who has had an attack of sciatic or inflammatory rheumatism will agree that the infliction is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheumatism, and hundreds bear testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth many times its cost. For sale by J. W. Kelly, Druggist.

The late J. B. An exchange says "e" is the most unfortunate letter in the alphabet, because it is never in cash, always in debt and never out of danger. It forgets that the aforesaid letter is never in war but always in peace. It is the beginning of existence, the commencement of ease and the end of trouble. Without it there would be no bread, no meat, no water, no life, no gospel, no Jesus, no farther, no mother, brother, sister, home or heaven.
